

CAPABILITY STATEMENT

Physical Energy & Commodity Brokerage

Pierre Commodity Partners is focused on building professional relationships among qualified buyers, suppliers, traders, and strategic participants across global physical energy markets.

CORE FOCUS

- Buyer and supplier sourcing
- Business development and introductions
- Preliminary counterparty qualification
- Transaction communication and coordination
- Market research and relationship management

MARKET INTEREST

- EN590 diesel
- Jet A-1 aviation fuel
- Selected crude oil opportunities
- Related physical energy products

OUR APPROACH

1. Understand

Clarify the party's role, product interest, geography, quantity, delivery terms, and commercial requirements.

2. Research

Review publicly available company information and establish basic counterparty context before introductions.

3. Connect

Facilitate relevant introductions when interests, roles, and transaction expectations appear aligned.

4. Coordinate

Support organized communication and document flow while principals and professional advisers conduct due diligence.
